## A Call for Prayer for Jelena

---

Friday December 16, 2011 A.D.

Many people have been contacting Caritas of Birmingham because of a rumor that Jelena, one of the interior locutionists of Medjugorje has had a stroke. Jelena is pregnant with her fifth child. She has experienced difficult pregnancies in the past. It began circulating this week that she had recently suffered a stroke. A Friend of Medjugorje spoke to several contacts in Europe and also spoke with Medjugorje visionary Marija Lunetti this morning, December 16, 2011. Jelena did suffer a stroke and she is currently in a hospital in Italy recuperating. Marija said that Jelena is okay and stable.

We know that you will respond to this information with prayers for Jelena and her family and a safe delivery for her baby.
